With Omnisphere's arpeggiator you can use both "key" and "sync" settings for the trigger input when playing pulsing, stepping, or arpeggiated synths.. I grew up playing piano and keyboards in church on a basic old school keyboard For all you keyboardist who care, it was a Korg SG-1D Sampling Grand Piano.. As a classically trained pianist, this transition was a bit difficult for me Many of my favorite songs now used aggressive dance synths or warm ambient synth pads, and my current keyboard was not cutting it.. I already owned a Macbook Pro, so I officially made the jump to software, and I've never looked back.. And to top it all off, I needed to be able to adjust my sounds at any given moment to facilitate the needs of our worship team and leader.. Dexed is a multi-platform, multi-format plugin synth that is closely modeled on the Yamaha.. I am just here to share with you my genuine experience to potentially help you (the keyboardists or band leader) as you are navigating the world of keyboard software.. Worship teams regularly switch out members and the instrumentations vary from Sunday to Sunday.. The Boxed/Drive Editions of our products are available exclusively from our international distributor and dealer network.. I felt much better about my purchase after realizing that I wouldn't need to replace this synth anytime soon. d70b09c2d4
